EDUCATION

Clemson University Clemson, SC
Bachelor of Science in Computer Science Jan. 2025 - May 2027
Tri-County Technical College Pendleton, SC
Associate's in Computer Science Aug. 2023 - Dec. 2024

EXPERIENCE

Tier II, Software QA Analyst Apr. 2025 - Present
Eleos Technologies Clemson, SC

- Mentor Tier I analysts to strengthen investigation skills and defect reporting quality.
- Analyze application logs with Papertrail and inspect API traffic with Proxyman.
- Provide engineering teams with reproducible defect reports, structured steps, and testing feedback.

Tier I, Software QA Analyst Oct. 2023 - Apr. 2025
Eleos Technologies Clemson, SC

- Performed exploratory testing across iOS, Android, and web platforms to identify defects before release.
- Verified cross-platform behavior during release cycles and reviewed requirements for clarity and accuracy.

PROJECTS

SleeperLive Oct. 2026 - Present
Swift, SwiftUI, ActivityKit, WidgetKit, Node.js, Express, SQLite, APNs, GitHub Actions

- Built an iPhone app, live on the App Store, that displays Sleeper fantasy football matchup scores through Live Activities.
- Developed a Node.js backend with SQLite persistence and APNs delivery, including device authentication, token rotation, and retry handling.
- Automated iOS simulator and server regression tests with GitHub Actions; validated concurrent activity with a 12-user simulation using mocked external services.

Web Service Project Dec. 2025 - Present
Node.js, Express.js, JavaScript, MongoDB, Mongoose, AWS

- Built a REST API for user authentication and truck-driver load tracking, including load status, identifiers, and order numbers.
- Implemented password hashing and generated API tokens; stored user and load data in MongoDB with Mongoose and deployed to AWS Elastic Beanstalk.

FantasyForecast Nov. 2025 - Present
Node.js, Express.js, Axios, HTML, CSS, JavaScript

- Built a full-stack fantasy football web app with player comparisons and automated Start/Sit recommendations.
- Integrated NFL and Sleeper API data through Node.js/Express services and developed a responsive dashboard with HTML, CSS, and JavaScript.

TECHNICAL SKILLS

Languages: Swift, C/C++, JavaScript, Java, HTML/CSS
Frameworks & Libraries: SwiftUI, ActivityKit, WidgetKit, Node.js, Express.js, Axios, Mongoose
Data & Tools: SQLite, MongoDB, Git, GitHub Actions, Xcode, AWS, Postman, Proxyman, Papertrail
Testing & Practices: XCTest, API testing, regression testing, exploratory testing, defect reproduction, Agile, Scrum
